Giving Shape to Ideas

# Innovation.

With Konica Minolta, you'll have innovative MFP solutions that give shape to ideas. Every Konica Minolta Office MFP and desktop printer/copier benefits from a design philosophy that puts more power in less space, with simple control and plug-and-play integration of software solutions. You'll have a wide range of choices in color and B&W, all with high-tech features and workhorse reliability – qualities that make Konica Minolta today's first choice in office productivity.

**High-Volume.**
Built for speed and workflow efficiency. High-volume bizhub® MFP models deliver B&W prints and copies at up to 95 ppm, with standard dual scanning at up to 240 originals per minute. Fast color scanning brings color originals into your workflow for easier saving and sharing. Color models can produce color prints as fast as 65 ppm – and integrated software gives you more power to meet changing document demands. For self-service central reproduction departments (CRDs) and back-office operations, these high-speed bizhub print/copy/scan solutions are unsurpassed.

**Mid-Volume.**
Flexible solutions for every business need. With print/copy output speeds of 65 ppm, 55 ppm, 45 ppm, 36 ppm, 30 ppm, 28 ppm and 22 ppm, mid-volume bizhub MFPs give you powerful, integrated solutions to meet wide-ranging business needs – an essential resource for workgroups, branch offices and small businesses with expanding ambitions. Right-size scalability means you can choose the speed, productivity and options you need – no compromise, no underutilized capacity.

**Light-Volume.**
Retire legacy laser printers and fax machines. Today's networked workflow demands more – increased efficiency, wide-ranging flexibility and reduced cost, plus greater accuracy and accountability. With network connectivity, high-resolution imaging and expandable paper capacity, these light-volume Konica Minolta color and B&W solutions are a perfect fit for mixed MFP and desktop environments.

**Satisfaction.**
Nobody does it better. With innovative technologies and plug-and-play software solutions, bizhub Office MFPs drive business goals. Recognized by Buyers Laboratory LLC (BLI) for an unprecedented four consecutive years as the winner of the "A3 MFP Line of the Year" award and by Brand Keys for eight straight years as the #1 Brand for Customer Loyalty in the MFP Office Copier Market, Konica Minolta Business Solutions is a proven leader.

**Customization.**
Fast access to the features you use most. Every company or organization has its own unique ways of working – and not all MFP functions are equally valuable. The bizhub MFP user interface can be customized to suit individual needs in a number of ways. And your free bizhub MarketPlace account gives you access to tools you can use to streamline your workflow and customize the user interface with company colors, images and logos, and even share personalized screens with other bizhub MarketPlace users.

**Simplicity.**
A touchscreen as easy as a tablet. The latest evolution of our INFO-Palette design lets you drag, drop, pinch in and pinch out, rotate images and more. With a quick flick of your finger, you can bring up the menu you want. Most models let you preview documents before you print, reducing errors that waste time and paper.

**Solutions.**
They begin at your MFP's control panel. With bizhub Extended Solution Technology (bEST) you'll have "solutions at the machine," saving time and money by integrating with industry-standard software on your bizhub touchscreen panel. Distribute and print documents and images, authenticate and track usage by department, user and account, securely release and print documents from centralized servers, even from cloud-based repositories – all accessible via intuitive menus that give everyone a touch of genius.

# Technology.

What makes Konica Minolta your best choice for managing content, increasing efficiency, improving productivity, managing and recovering costs? It starts with bizhub technology, today's benchmark in fast, cost-efficient digital document delivery. Then we add cool new features, functions and solutions to speed your workflow and set you free – touchscreen control, effortless mobility and solutions at your control panel. For MFPs that work the way you do, bizhub performance is unsurpassed.

bizhub MarketPlace

**Applications.**
Go shopping on the bizhub MarketPlace. Simple workflow and communication apps run inside your bizhub and are accessible from the touchscreen control panel to provide immediate productivity benefits. Apps like Google Mail and Drive, Connect to Microsoft SharePoint, Connect to FileAssist and Evernote support scanning to and printing from these cloud-based and on-premises document repositories. Announcements, Clean Planet, Paper Templates and more can save time, speed work and make administrative tasks easier. For information, please visit: **bizhubmarketplace.com.**

**Access.**
Helping everyone reach full potential. At Konica Minolta, we develop products from the ground up for Section 508 compliance: accessibility for everyone, regardless of age, gender, stature of special needs. Touchscreen control panels tilt for greater visibility. Control LEDs and icons are brighter and easier to understand. Paper drawers open from the front with smooth-sliding action.

**Mobility.**
An essential advantage for today's mobile workforce. Our mobility solutions and All Covered IT services from Konica Minolta can provide you with mobility strategies that will empower your workforce. The PageScope® Mobile app lets you print or scan documents on networked bizhub MFPs from iPad, iPod, iPhone or Android devices. With Apple's AirPrint Wireless Printing, you'll have quick and efficient printing on iOS devices. We also provide mobile printing capability through Google Cloud Print, Near Field Communication (NFC), and Bluetooth Low Energy (BLE). Wireless printing is available on all bizhub MFPs, – and Konica Minolta is on the board of the Mopria Alliance, a non-profit industry initiative dedicated to simplifying the process of wireless printing with common standards and transparent interoperability.

**i-Options.**
Special tools for demanding applications. Innovative i-Option capabilities for your bizhub MFP include Internet access from your bizhub touchscreen, PDF/A formatting and Linearized PDF support, Advanced PDF encryption for secure scanning applications, Searchable PDF conversion, specialized barcode printing support and more. There's also an i-Option for Voice Guidance operation for the vision-impaired.

**Controlling Costs.**
Keep track of your workflow. PageScope Enterprise Suite provides multiple accounting and cost control benefits – tracking your MFP copy, print, scan and fax activities, tracking usage by users or departments, creating reports to allocate costs. It also enables you to authenticate users, restrict or limit access to specific MFP functions, even release prints from anywhere on your network.

**Enterprise Print Management Services.**
Manage your printing, right-size your fleet. Konica Minolta's Managed Print Services program, named Optimized Print Services (OPS) program can boost your efficiency, lower your costs, even assist you in modifying employee behavior to increase document productivity. Konica Minolta's unique approach to your fleet, security and workflow starts with advanced assessment processes and metrics to evaluate your current print environment – and pays off in measurable results.

# Expertise.

How can Konica Minolta help your business move forward – and keep ahead of the competition? By understanding the real-world needs that drive gains in performance and productivity: enhanced security, cost controls, print management and accounting, and efficient business processes. With proven expertise in creating adaptable, customizable systems that achieve specific productivity and cost-saving goals for general business as well as legal, educational, healthcare, financial, manufacturing and other specialized industries. Through years of experience, we've learned to listen. That's why you can count on Konica Minolta.

**Security.**
More ways to safeguard your data. The latest bizhub MFPs have been certified to meet strict ISO 15408, IEEE 2600.1 and FIPS 140-2 standards. Along with encrypted PDF, hard drive encryption, automatic document overwrite, IP filtering, Copy Guard and a comprehensive array of standard safeguards, Konica Minolta offers advanced authentication options like Biometric Authentication – as well as options to support popular card-based security systems for HID Proximity Cards, HID iClass Cards, Magnetic Stripe Cards and CAC/PIV Card systems in use by the U.S. Federal Government (including the Department of Defense).

**bizhub SECURE.**
Powerful lock-down protection. Your Konica Minolta service provider can activate the built-in security-based features of your bizhub MFP by enabling bizhub SECURE: setting a secure administrative password, HDD encryption and HDD password lock, temporary data overwrite after each job and auto deletion of User Box data after a specified time.

**Device Automation.**
Keeping you up and running. Konica Minolta's bizhub vCare program can increase your productivity by maximizing your uptime. With automated meter reads and monitoring of toner levels, scheduled service calls, proactive routine maintenance and fast emergency response, vCare, a Miercom Certified Green technology, can make all the difference when it counts.

bizhub vCare™

**Administration.**
Get it done without leaving your desk. PageScope Device Manager allows users or administrators to check MFP operating status from their browser. Administrators can also configure, monitor and manage bizhub devices remotely from a centralized web-browser-based console.

# Environment.

At Konica Minolta protecting the planet is a top priority. As part of our worldwide Corporate Citizenship program, we pursue a broad array of environmental initiatives – eliminating pollutants, reducing energy consumption, and creating products and solutions that help our customers realize their own sustainability goals.

**Clean Planet.**
Recycling made easier. Konica Minolta's Clean Planet program provides cost-free recycling for all our consumables, including toner cartridges and bottles, imaging units, developer and drums – with prepaid shipping labels and cost-free packaging. We can even arrange pickup from high-volume users.

**Impact.**
Brilliant, vivid color images. Color bizhub MFPs produce superb images with Simitri® HD toner – our exclusive toner formulation with smaller, more uniform particles for high-resolution text and detail. Simitri toner uses plant-based biomass material to reduce environmental impact – and also fuses to paper at lower temperatures, saving energy as it improves your image.

**Eco Vision 2050.**
A vision for the future. At Konica Minolta, we're committed to a mid-century goal of reducing $CO_2$ emissions by 80% over 2005 levels, minimizing greenhouse gases that may contribute to global warming. We pursue that goal every day – minimizing energy consumption, cutting pollution and using recycled materials in construction.

**Sustainability.**
Steps to reduce our eco-footprint. The latest bizhub models are EPEAT-Gold Certified and achieve among the lowest power consumption rates of any MFPs in their class. Energy saving modes reduce power consumption while maintaining fast first-copy output – and a unique Eco-indicator helps you monitor paper, toner and energy usage.

# Partnership.

Konica Minolta can help give shape to your ideas and partner with you to achieve your corporate objectives. Contact us to realize opportunities in:
